

Expanding your business opportunities and possibilities in Thailand

In Thailand, the possibilities for businesses are endless. Across the region, huge opportunities are emerging in sectors ranging from infrastructure and construction to fast-moving consumer goods and services. Thailand is ASEAN's second largest economy with key exports include vehicle parts and accessories, computers, refined fuel, rubber and plastics, etc.

As gateway to ASEAN, Thailand enjoys close economic cooperation with ASEAN, which has 10 member nations with more than 600 million people. ASEAN, under the ASEAN+6 agreement, has direct linkages to six of the world's largest economies—China, India, Japan, Korea, Australia and New Zealand. ASEAN will soon become the world's biggest market

and home to the world's most important business events. In addition, Thailand also has 11 bilateral free trade agreements with countries in Asia and around the world that are providing unique advantages and opportunities for businesses and driving growth.

The collaboration in Thailand between the government and the private sector is a real strength that maximizes the business opportunities for all MICE partners throughout Asia and takes events to another level. Thailand Convention & Exhibition Bureau (TCEB) has formed numerous collaborations and networks to strategically support your business and spur lasting growth and success.
